

A woman with dark hair in a bun is looking at a computer monitor. The monitor displays a dashboard with various data visualizations, including line graphs, bar charts, and gauges. The background shows a modern office environment with a desk, a laptop, and a shelf with books and plants.

# Job Post Analysis and Report

Data Science

## INTRODUCTION

In this project, participants are expected to analyze datasets scraped by the Data Engineering Interns. This project aims to apply data analysis techniques using Python.

By analyzing this data, the project aims to provide valuable insights into the job market and assist job seekers, employers, and recruiters in making informed decisions.

The Timeline for the Project is 2 weeks.

# PROJECT OBJECTIVE

- ❑ Utilize Python libraries and tools to perform exploratory data analysis (EDA) on the collected job data.
- ❑ Identify trends, patterns, and insights related to the different technology jobs.
- ❑ Visualize the analysis results using appropriate charts, graphs, and visual representations.

# PROJECT TIMELINE

**Week 1: Data Cleaning**

**Week 2: Data Analysis**

**You Are Expected To  
Present  
A Comprehensive Report Of  
This Task To The  
Stakeholders**
